Taking off by helicopter and watching the Gulf of Naples unfold beneath you instantly changes your perspective. The sea becomes a deep, shimmering surface, and each island reveals its own distinct character from above.

The flight begins smoothly, and within minutes Capri appears in all its dramatic beauty: sheer cliffs, the iconic Faraglioni, and the striking contrast between pale rock and dark blue water. As you continue, the scenery softens over Ischia, larger and greener, with its bays, natural thermal areas, and gentle landscapes that speak of a lively, authentic island. The journey concludes over Procida, intimate and radiant, where pastel-colored houses and small harbors look like a living painting.

This is a private helicopter tour designed for those who want to experience time without rush, in complete comfort, aboard a luxury helicopter with a professional pilot. Departure is available from several heliports, allowing the experience to adapt seamlessly to your travel plans. Up to six passengers can be accommodated on board, whether you wish to share the moment or enjoy it in a more exclusive setting.

The flight lasts 50 or 60 minutes, the ideal time to fully enjoy every view and take home unforgettable memories. The price includes taxes, insurance, and fuel, with no hidden costs.

An aerial journey that connects three iconic islands in one smooth, elegant, and truly memorable rience.
